

Position Title Field Technician/Laborer

Company Sycamore Gas Company

Location Lawrenceburg, IN

Department Field Operations

Posting Date 3/21/22 Posting Expiration Date 3/29/22

PRIMARY FUNCTION

The Field Technician/Laborer performs a wide variety of tasks in the field relating to the installation and maintenance of piping systems, pressure regulating equipment, customer meters, appliances, and commercial and industrial gas equipment, emergency response and serving the company's customers.

The Field Technician/Laborer enters businesses, industrial complexes, and customers' homes and makes contact with business proprietors, homeowners, and industrial plant owners and operators, mostly by explaining complex topics to these subjects.

Daily Responsibilities

- Maintain company vehicles and equipment necessary for job functions.
- Complete necessary documentation, inventory and forms of work completed
- Minor troubleshooting of gas facilities and equipment
- Meter and regulator installation and maintenance
- Locating gas facilities including main and service pipelines
- Respond to emergencies including inside/outside leak calls and hit lines
- Read company meters
- Perform new construction activities and system maintenance activities
- Provide as-built information for company records
- Maintain a working knowledge of company Operations and Maintenance Manuals

Miscellaneous

- Maintain Operator Qualifications through computer training and testing, and by skill verification through performance evaluations
- Be put into an afterhours on-call rotation
- Respond to Emergency situations
- Perform other duties as assigned
- Must be willing to join a union that is signatory with Sycamore Gas

QUALIFICATIONS

- High school diploma or equivalent is required for this position. The individual will be expected to have a CDL or a valid driver's license and capable of acquiring a CDL
- Previous Industry Experience is preferred but not required

COMPETENCIES

- Ability to clearly communicate complex ideas verbally and in writing is crucial for ease of understanding between customers, authorities, and fellow employees.
- A motor vehicle operator with valid license is required, and the applicant must be bondable with no record of felony convictions.
- Experience with Microsoft office as similar computer programs is desirable.
- Maintain a General knowledge of pipeline safety regulations put forth by local, state and federal agencies.
- Maintain a working knowledge of companies Operations and Maintenance Manual and Construction Manuals.

WORKING CONDITIONS

PHYSICAL DEMANDS:

Daily activity is **fast paced**, physically demanding, and with production goals. Duties involve heavy lifting and manual labor. The individual must be available for emergency call-outs and be able to work extended hours; job site reporting is common.

Majority of the workday is spent outdoors; therefore this individual is exposed to (and must have tolerance for) extremes of heat, cold, noise, and dust. Exposure to construction equipment and normal driving hazards is encountered regularly.

SAFETY SENSITIVE JOB:

This is a safety sensitive job and as such is subject to random drug testing as required by the U.S. Department of Transportation (D.O.T.). Employment is contingent upon passing a pre-employment physical examination and completing DOT OQ courses.

Application Process:

Internal candidates should complete the internal posting form and send the form to Annmarie Vincent, Human Resource Manager by the posting expiration date. Please include a resume if applicable.
